To whom it may concern

Thank you for supporting Flagstaff an Australian Disability Enterprise

Dear Colleague,

The Flagstaff Group is the Illawarra Regions largest employer of people with a disability, employing over 240 people with disabilities in 6 separate commercially sustainable businesses.

Our coffee division provides sustainable employment for up to 8 people with disabilities.

With our partners we have the Illawarra's largest coffee roasting plant with the capacity to roast and pack up to 2 tonnes per shift. Our beans are roasted by a master roaster using Italy's latest environmentally friendly technology. All packaging and labelling is carried out by people with disabilities.

As a sustainable social enterprise Flagstaff does not fundraise or ask for charity and we greatly appreciate the support of the wider business community.

With our strong commercial focus, what we ask for is your business so we can provide more jobs and vocational skills for people with disabilities.

By Purchasing C4B coffee beans you are supporting the employment of people with disabilities. The Flagstaff Group, a Not For Profit, Australian Disability Enterprise, would like to express its heartfelt gratitude, because your order allows us to sustainably employ people with disabilities.

Your business allows us to remain commercially sustainable and self-sufficient. It also allows our Group to achieve its mission of *providing meaningful employment for people with a disability*.

I would like to take the opportunity to thank you personally for giving Flagstaff via Coffee 4 Business (C4B) the opportunity to supply your coffee bean requirements.

Thank you and Take Care.

Roy Rogers
CEO – The Flagstaff Group
CC – C4B

More than just good business
